# **Budget Overview**

The 2023 budget continues with our facility's progress on our capital projects which are anticipated to conclude in 2024-25 budget year. There are many challenges in this budget regarding energy, chemicals, and related operational costs. Natural gas has been as much as three times the cost we have paid in past years. Natural gas demand has increased substantially which has further increased pricing. Central Valley Water Reclamation Facility's staff have worked to lower costs through finding new vendors or asking vendors about multiyear contracts to provide additional savings. Even with these efforts, inflationary pressures are visible in this year's budget.

### **Wages & Benefits**

The total year-to-year change for personnel wages and benefits is an increase of 5.93 percent which includes a 5.05 percent cost-of-living adjustment (COLA), 2.0 percent merit, 2.15 percent annual career ladder increase (26 possible staff). The COLA is based on the Board's adopted policy which was approved in July of 2022. The 2020, 2021, 2022 July West Region consumer price index (CPI) information is provided below:

Year	Change
2020	1.69%
2021	5.18%
2022	8.30%
Average	5.05%

## Consumer Price Index, West Region 2022 July

#### CPI Area prices were up 0.1 percent over the past month, up 8.3 percent from a year ago

Prices in the West Region, as measured by the Consumer Price Index for All Urban Consumers (CPI-U), advanced 0.1 percent in July, the U.S. Bureau of Labor Statistics reported today. The July increase was influenced by higher prices for shelter and food. (Data in this report are not seasonally adjusted. Accordingly, month-to-month changes may reflect seasonal influences.)

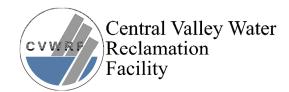

Over the last 12 months, the CPI-U increased 8.3 percent. Food prices increased 10.3 percent. Energy prices advanced 28.5 percent, largely the result of an increase in the price of gasoline. The index for all items less food and energy rose 6.3 percent over the year.

#### Staffing

There is an additional part-time employee in the lab. This part time employee will help with the workload associated with oils and grease testing that has currently increased and will increase going forward. It is anticipated that one employee will be retiring in 2022. The payout has been budgeted and is part of the increase in Wages & Benefits.

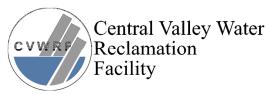

Health insurance is budgeted to increase by 2 percent. The projected national average increase for 2022 is 5.6 percent\*. CVWRF management is pleased that our increase is well below the national average.

## **Operating Budget Changes**

### **Operations**

The Operations category contains Travel & Training, Uniforms, Subscriptions, Janitorial, Tipping Fees, and Supplies. This category increased by 6.53 percent, an increase of \$81,500 over the prior year. The approximate increase is made up of \$2,000 for uniforms, \$20,000 for travel and learning with \$5,000 of this tuition and \$5,000 for new Cogen engine training, \$2,300 increase for credit card fees, \$4,000 for janitorial supplies, \$900 for postage, \$4,000 for general supplies, \$8,000 for the miscellaneous, \$28,000 for fuel and \$3,700 for tipping fees.

#### **Contract Services**

The Contract Services category line increased by \$329,000. This is mainly from \$200,000 for the asset management plan update (last updated in 2016), \$45,000 for lobbyist and \$50,000 for the salary survey.

#### Utilities

The Utility category is increasing by \$322,000. This is mainly from the increase in the natural gas budget of \$100,000 as gas costs have risen this year and the increase in the power budget of \$210,000 as we are purchasing additional power to operate newly constructed assets.

#### **Chemicals**

The Chemicals category is increasing by \$268,000. Of this increase, \$116,000 was due to market rate increases for polymer, hypochlorite, and ferric sulfate. The mag chloride is a new chemical for the side-stream phosphorus process. This chemical increased the budget by \$82,000 and will continue to increase in future years. The Supplemental Process Chemicals budget increase by \$55,000, this is the result of losing trickling filter number one. The Lab department also increased their Chemical budget by \$15,000.

#### Maintenance

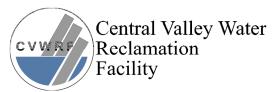

The Maintenance category increased by \$86,000. This increase is from the general increases in costs of parts for the facility.

#### Insurance

The insurance category increased by \$248,000. Of this amount \$65,000 is for additional liability coverage. Of the remaining increase, approximately 33 percent of this increase was from the increase in asset value from construction of the new facilities and the remaining 67 percent was from insurance rate increases.

### **Contingency**

This category remained flat with the prior year's budget. With natural gas prices varying so drastically, management may need support from the contingency budget. If contingency budget is required to be used, management will come to the Board for approval prior to use.

The pay-as-you-go capital

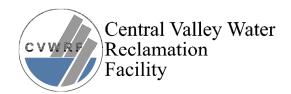

The annual budget amount for pay-as-you-go capital is \$7.0 million. CVWRF will not be carrying forward budget from the pay-as-you-go capital budget as the plan is to utilize any unspent budget at the end of each year to help pay for the BNR project. Paying for the BNR project with unused pay-go capital will free up bond proceeds to pay the extra cost for projects in which the construction bids have come in over their budget estimate.

The pay-as-you-go capital budget is as follows:

Pay-as-you-go CIP	Description	Budget
